Hi Disciplinary Co-Chairs,

I've received word from some people that when they open the RDX documents sent around by Vince on 9/26, they get repeated requests to open the corresponding endnote library. It's unclear why this is only happening to some people and not others, but to simplify things I've stripped out the formatted endnote citations and left the temporary citations in place so that you won't have to download the hero library for RDX every time. Updated copies of the tox review and supplemental materials with unformatted citations are attached to this message and can also be found in the review group folder, located here: [Personal Matters / Ex. 6](#) or Workgroup Review

Hopefully using these files will simplify the review for you and your teams. Let me know if you have any questions, and thanks for coordinating the review!

-Lou
